

Technical Sheet

VERTICAL, WALL MOUNTED STAINLESS STEEL AISI 304 SATIN FINISH

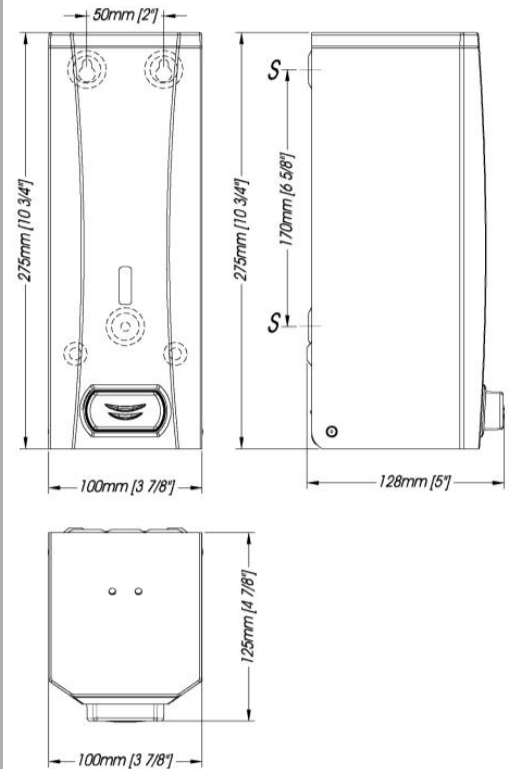

DJ0040C/S

General Description

- x Liquid soap dispenser made of stainless steel AISI 304, satin finish, wall mounted.
- x Push-button operated.
- x Robust and vandal-resistant.
- x Suitable for high traffic facilities.
- x Model suitable for public use.
- x It normally goes along with a warm air hand dryer.
- x Opening on top with provided mediclinics key that allows soap loading.
- x Vandal resistant locking cover.
- x Allows disinfectant solutions, liquid soaps or hydro-alcoholic gel. Surgical soaps and soaps with solid abrasive particles are not supported.

Components & Materials

- x Stainless steel AISI 304 body, 0,8mm thickness, satin finish.
- x Stainless steel AISI 304 base plate, 0,8mm thickness, raw finish.
- x Push button made of POM thermoplastic with stainless steel cover 0,8mm thickness.
- x It is mounted on the wall by means of 3 stainless steel screws with their corresponding O6mm wall plugs (the upper ones attach the dispenser whilst the lower one fix it to the wall) (screw and wall plugs are provided).
- x Inner tank made of 2,5mm thickness translucent PP. Access to its interior using a standard mediclinics key supplied.
- x Inner tank lid made of 2 mm thickness translucent PE-LD.
- x Black ABS plastic, anti-dripping and anti-corrosion valve.
- x Housing with one viewing slot.

Dim ± 4%

Technical Specifications
