

TECHNICAL DATA SHEET

MICROBLUE WET SYSTEM MOP CM 40X13

MM 40T

* MICROBLUE microfibre flat mop cm 40 with three-hole flaps, polyester support and colour code system. * When dry it generates electrostatic charge to the floor, picking all dust. When used damp capillary vacuum force captures dirt and solution. * Recommended laundering for 300-350 washes. * Ideal for a professional and efficient cleaning of floors, walls and ceilings. Suggested for smooth surfaces with medium-low dirt. * To be used with Wet System frames. * Washing temperature: max 90°. Do not use softener. Do not use chlorine bleach. Tumble dry at low temperature.
