

PEVA PREMIUM

Premium **Hand Cleaner**, with natural abrasives made of walnut shell meal, for the removal of extreme soiling such as lacquers, paints, glues, oil, etc.

PROPERTIES

PEVA PREMIUM is designed to efficiently remove extreme contaminations such as lacquers (2-component varnish), paints, glues, polyurethane foams, resins (epoxy resin), floor sealant, but also oil, grease, lubricants, etc.

- ✓ unites excellent cleaning performance with, at the same time, very good skin tolerance.
- ✓ suitable for use in various areas of work that might cause the above mentioned contaminations.

COMPOSITION

PEVA PREMIUM is made using selected special raw materials.

- contains environmentally-neutral and skin-gentle ester oils to support cleaning.
- contains finely ground and rounded walnut shell meal as abrasive. Walnut shells are a waste product, so that there is no competition with food.
- walnut shell meal does not clog any drains.
- contains coconut oil components and another plant-based moisturising component to ensure skin feels good after washing.
- is free of silicones.
- is dermatologically tested with the rating of "very good".

APPLICATION

Rub **PEVA PREMIUM** into dirty, dry hands until the dirt dissolves. Add some water, wash thoroughly and rinse well.

PEVA PREMIUM is economical in use. One dispenser dosage quantity is sufficient for thorough manual cleaning.

Note: Avoid contact with plastics. If it comes to contact with eyes, flush with large amounts of water

PRODUCT DESCRIPTION

PEVA PREMIUM is a dark-beige flowable Hand Cleaner.
pH-value: approx. 4.5 - 5.8
Density: approx. 1.05 g/cm³ (20°C)

LEGAL REGULATIONS

PEVA PREMIUM is subject to the European Cosmetics Regulation No. 1223/2009.

All our cosmetic products are manufactured according to GMP (Good Manufacturing Practice) and undergo microbial quality control (as required by the EU Cosmetics Regulation).

STORAGE INFORMATION

PEVA PREMIUM can be stored in closed original containers at room temperature for at least 24 months. Protect from frost.

SKIN CARE TIPS

In the unavoidable handling of harmful substances, a suitable skin protection agent should be used to prevent skin damage before starting work (e. g. the generally applicable skin protection lotion **PEVAPERM**).

After work, the skin should be regularly rubbed with a suitable skin care product (e. g. **PEVALIND**, the active substance-rich skin care lotion) to regenerate the skin.

FURTHER INFORMATION

Group leaflets, specifications and dermatological reports are available on request. Certificate: The **PEVA PREMIUM** product passed the dermatological-allergological tests carried out under medical supervision with "very good".
